LEGION VIEW OF N. S. A.

Libertyville, Feb. 27—According to the Associated Press, administration officials have argued that it was necessary for the Central Intelligence Agency to subsidize the National Student association so that the N. S. A. could afford to present the American view to counter communist-inspired youth groups abroad.

Francis

The American Legion in 1963 exposed the National Student association in its resolution No. 510 as being an organization which had been heavily infiltrated by left-wing and pro-communist elements and as a result had adopted policies and programs which closely adhered to important lines of the Communist party.

In the same resolution, the American Legion set forth its opposition to the establishment of any N. S. A. chapters at tax-supported colleges or universities on the grounds that such chapters would aid in the dissemination of communist propaganda.

The selection of the N. S. A. to represent America is incredible and the fact that the CIA apparently did not object to the subsidy raises serious questions as to its own competence.
